

Pact Winter

The Expansion requires the base game
+ 1 player + 5 minutes

We hate the cold in winter and want to
complete the winter tasks as quickly as possible so
that we can retreat into the warmth!

Components

18 Goblin Cards, 6 Task Cards (winter),
6 Winter Specialists, 1 Dynamite Card,
1 Pact Card, 1 Specialist Card (this replaces
the corresponding Specialist Card from the base
game), 3 Goblin Figures + 1 Marker (white).

Preparation

Shuffle the 18 Goblin cards together with those of the
base game. These form the Goblin Deck.

Shuffle the 6 Winter Specialists and place them in a
face-down stack.

The Pact and Dynamite cards are only needed in the
game of six. You only need the Goblin Figures and
the Marker if you play the expert version.

Shuffle the 6 new Winter Tasks and place at the
bottom — place the Autumn, Summer and then
Spring Task cards on top, in that order.

With 3 players, remove 12 Spring cards from the
game without looking at them. With 4 players,
remove 8 Spring
cards, and with
5 players remove
4 Spring cards.
Draw 4 cards from
the Task pile and
place them face-up
next to it.

Otherwise, the preparation is the same as in the base
game.

Gameplay

The gameplay is identical to the base game.

Winter Specialists

If you include the “Winter Specialists”, the game
accelerates towards the end:

As soon as the first Winter Task card is revealed, you
take the Specialist cards from in front of you and place
them back into the game box. Then deal the 6 Winter
Specialists to the players. This is done the same way as
at the beginning of the game, according to the number
of players (e.g. with 4 players, the first two players
receive one Winter Specialist each, and the last two
players receive 2 Winter Specialists each).
Winter Specialists are used in the same way as the other
Specialists, i.e. a maximum of one per turn.

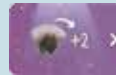

After being used, it is passed to the right-hand neighbor.
